

k Training: Impactful Presenting

Objective

Become an exceptional, persuasive, and transformational public speaker by mastering the art of presenting.

Why?

A powerful presentation helps you get your message across. The goal is to inspire change, not just share information. Whether in an intimate boardroom setting, a video conference, or on a stage in front of a large crowd, the principles and techniques are the same - and they can be learned. By the end of this program, participants will be able to deliver a transformative and impactful presentation. They will know how to read, energize, and win over an audience. In addition to mastering body language and managing stage fright, participants will gain confidence, learn how to simplify complex stories, craft key messages, create a compelling presentation deck, and prepare themselves to deliver with impact.

Attendees will learn to

- Build an easy-to-understand narrative
- Prepare a powerful presentation deck
- Manage stage fright and be mentally & physically prepared
- Use body language and voice to reinforce their message
- Win the audience within the first 10 Seconds
- Manage the room, disturbances and hostile attendees

Preparation

Each participant comes prepared with a presentation they have given, or plan to give in the near future. They must be familiar with the content of the presentation.

Duration & Group-size

- 1 Day Training, in person
- Min. 1 / Max. 8
